

Cookies:

The Edison Energy Insights Portal (Site) uses cookies and may also use the services of third-party providers that deploy cookies in connection with their services. A "cookie" is a small text file which is sent by our Site's server and stored on your computer or other device when you visit the Site. These cookies are required for the Site to function properly and are used for the purpose of improving your experience of the Site by remembering your preferences and other information that you have provided to us. If you accept this notice, we will store cookies necessary for the Site to function properly on your device.

The Site uses the following cookies for the following purposes:

- Strictly Necessary Cookies: These cookies are essential in order to enable you to move around the Site and use its features; for example, to remember which page of the Site you have previously visited during the same session, so that you can quickly move backwards and forwards between those pages.
- Performance and Analytics Cookies: These cookies keep track of the pages of the Site that you visit and the content you access, so that we can determine which content is most popular and improve the performance of the Site. These cookies record only anonymous statistical data and do not collect any personal data that could identify an individual User.
- Functionality Cookies: These cookies remember the choices you make, such as language options or the timezone region you are in. These cookies help to make your visit to the Site more personal and are deleted automatically when you close your browser or when your browsing session expires.
